Market:

Students of the history and culture of late medieval Wales and of its society at all levels. Also, students of early Tudor history and those with a general interest in the subject.

Blurb:

This is a study of the landed gentry of north Wales from the Edwardian conquest in the thirteenth century to the incorporation of Wales in the Tudor state in the sixteenth. The limitation of the discussion to north Wales is deliberate; there has often been a tendency to treat Wales as a single region, but it is important to stress that, like any other country, it is itself made up of regions and that a uniformity based on generalisation cannot be imposed. This book describes the development of the gentry in one part of Wales from an earlier social structure and an earlier pattern of land tenure, and how the gentry came to rule their localities. There have been a number of studies of the medieval English gentry, usually based on individual counties, but the emphasis in a Welsh study is not necessarily the same as that in one relating to England. The rich corpus of medieval poetry addressed to the leaders of native society and the wealth of genealogical material and its potential are two examples of this difference in emphasis.

Key Selling Points:

- An understanding of the medieval roots of the Welsh ruling class.
- The origins and rise of some of the leading families of north Wales.
- The way in which leading estates developed.

**A. D. Carr** was Professor of Medieval Welsh History at Bangor University until his retirement and has published extensively in this field.

# The Communist Party of Great Britain and the National Question in Wales, 1920-1991

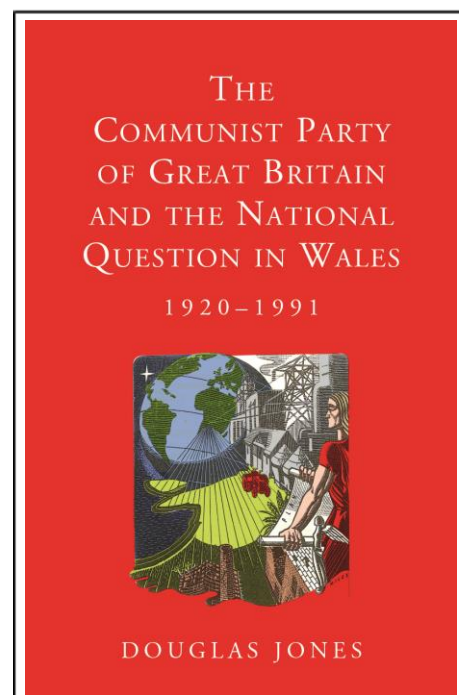

Douglas Jones

Series: Studies in Welsh History

October 2017

£75 • HB • 9781786831316 • 216 x 138mm • 320pp

£19.99 • PB • 9781786831309 • 216 x 138mm • 320pp

Market:

This book will be of interest to the general reader as well as specialists in the field.

Blurb:

While electorally weak, the Communist Party of Great Britain and its Welsh Committee was a constant feature of twentieth century Welsh politics, in particular through its influence in the trade union movement. Based on original archival research, the present volume offers the first in-depth study of the Communist Party's attitude to devolution in Wales, to Welsh nationhood and Welsh identity, as well as examining the party's relationship with the Labour Party, Plaid Cymru and the labour and nationalist movements in relation to these issues. Placing the party's engagement of these issues within the context of the rapid changes in twentieth century Welsh society, debates on devolution and identity on the British left, the role of nationalism within the communist movement, and the interplay of international and domestic factors, the volume provides new insight into the development of ideas by the political left on devolution and identity in Wales during the twentieth century. It also offers a broad outline of the party's policy in relation to Wales during the twentieth century, and an assessment of the role played by leading figures in the Welsh party in developing its policy on Wales and devolution.

Key Selling Points:

- The first in-depth academic study of this subject, will allow readers the opportunity to read about the subject for the first time.
- Provides new insight into the development of ideas on the left regarding Welsh devolution, nationalism and identity in the twentieth century – gives readers a fresh perspective to approach these subjects and develop a broader understanding.
- Places the Communist Party within the ebb and flow of Welsh twentieth century history – gives readers a broader understanding of Welsh history in the twentieth century.

# Welsh Planning Law and Practice

Graham Walters

Series: The Public Law of Wales

October 2017

£130 • HB • 9781786831552 • 234 x 156mm • 368pp

Market:

This book will be of interest to all those engaged in or interested in the planning system in Wales.

Blurb:

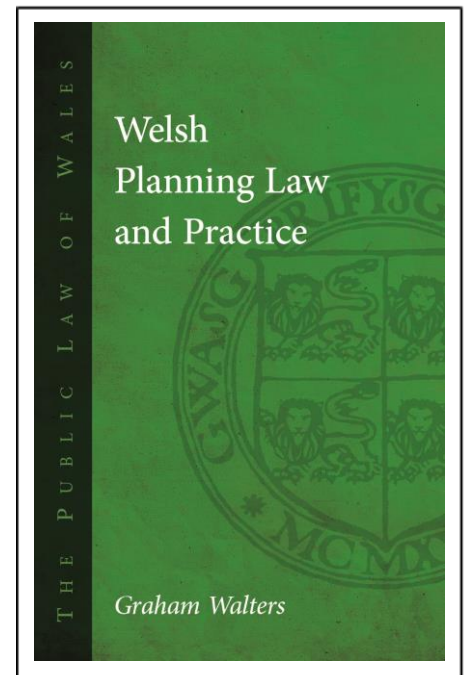

Welsh Planning Law and Practice provides a comprehensive guide to the sources and structure of Welsh planning law and a route through its complexity. This is not a comparative study, but rather deals with legislation and policy affecting land in Wales, placing them in the context of shared principles and concepts and the case law common to England and Wales. More than an academic exercise, planning is a practical matter affecting important aspects of daily life, and the desirability of public engagement in the planning process is well settled. This book contributes to the promotion of recognition of the body of Welsh planning law, to aid accessibility for all who practise in or who are (or want to be) involved in shaping development in Wales.

Key Selling Points:

- Comprehensive guide to the structures and framework of Welsh planning.
- Welsh law treated as a body of law, not as a variant of or footnote to the law in England.
- Law and practice set in the overall context of common planning principles and case law.

Author Details:

**Graham Walters** is a barrister and a Board Member of Planning Aid Wales.
